David Pescariu

Student & Developer based in Cluj

Huge fan of hackathons and Open-Source & passionate about Computer Vision.

I am dedicated to what I do, and lately, I've been helping companies improve their online presence.

experience

Freelance Web Developer
Dec 2020 - Present

I am helping businesses with outdated websites regain their popularity online.

- Developing modern mobile-first websites suited to my client's needs.
- Constantly engaging with my customers to ensure satisfaction.
- Increased traffic by up to 60%, thus improving their long-term revenue.

Full Stack Junior Developer
May 2020 - Nov 2020

DPIT Academy & Bosch ECC

Created a product meant to make you feel safe no matter where you are - *Safe Signal*

- Developed a mobile app with Flutter which communicated with a BLE module and integrated a map showing local reports of dangerous activity.
- By building this product we were fighting the huge problem that is street harassment - up to 80% of woman's in the US face harassment.
- With our solution, we ended up taking 2nd place during the 2020 DPIT Academy.

education

Matematica - Informatica (Intensive)

Lucian Blaga High School
Cluj-Napoca
2019 - 2023
